The Riddell Library and Learning Centre is central to the Mount Royal University campus, offering services and support to the entire community. It is an open and welcoming building providing ready access to the plaza. Glazed facades overlook the green space and allow for views into the Library and Learning Centre.

Designed to meet LEED® Gold Certification, horizontal and vertical exterior elements enliven the facades and provide sun shading. The central concourse is located at the heart of the building with clerestory glazing above, allowing increased daylight into the building.
